

Special Services

Sewer

Service call for investigation and releasing of plugged sewer: \$233.42 (GST exempt)

Truck-Hauled Wastewater

- (A) Sewage delivered by truck to city disposal sites (less the first steering axle): \$15.04/axle (GST exempt)
- (B) Wastewater having a settleable solids concentration greater than 100 mL/L shall be charged twice the rate indicated in clause (A).

Application Fees

Permit to Release fee (per year of permit term): \$324.58 (GST exempt)

Compliance Approval fee (per year of approval term): \$324.58 (GST exempt)

Records Search (per address): \$100.51 + GST

Application for Sewer Metering fee (per application): \$250.00 (GST included)

Application for Contributive Sewer Utility fee (per application): \$250.00 (GST included)

Application for Land Drainage Utility Credit fee (per application): \$250.00 (GST included)

Past Due Accounts

Bills paid after the due date are subject to a 2.5% penalty, calculated on the amount of the current items, as per Bylaw No. 11935, The Late Payment Penalty Amendment Bylaw.

NOTE: All persons making use of this summary are reminded that this document has no legal status, that the amendments have been embodied only for the convenience of reference and that the original bylaws should be consulted for all purposes of interpretation and application of the Bylaw.

Drainage Rates

Approved by City Council, December 5, 2011
 Amendment to Schedule "E" of Sewers Use Bylaw

Bylaw No. 15924

Effective January 1, 2012

Drainage Services

January 1, 2012

Drainage Rates

Sewer charges are based on metered water consumption.*

Residential Customers

Monthly Service Charge	\$7.54
Consumption Charge	
(a) Monthly consumption (per cubic metre)	\$1.4413

Commercial / Industrial Customers

Monthly Service Charge	\$7.54
Consumption Charge	
(a) First 10,000 cubic metres per month	\$1.4413
(b) Consumption over 10,000 cubic metres per month	\$1.1151

*If no meter exists, sewer charges are based on the provisions of the Sewers Use Bylaw No. 9675 Part VIII 9. Wastewater treatment services provided by EPCOR.

Wastewater Overstrength Surcharges provided by EPCOR

The overstrength surcharge for each kilogram of surchargeable matter per cubic metre of wastewater that exceeds the concentration indicated for that matter, in **Column A** of Schedule D, annexed to Bylaw No. 9675 shall be:

	Concentrations Above
(a) 34.61 cents for Biochemical Oxygen Demand (B.O.D.)	300 mg/L
(b) 34.61 cents for Chemical Oxygen Demand (C.O.D.)	600 mg/L**
(c) 30.27 cents for oil and grease	100 mg/L
(d) 2.881 dollars for phosphorous	10 mg/L
(e) 31.42 cents for suspended solids	300 mg/L
(f) 73.51 cents for total kjeldahl nitrogen	50 mg/L

** Or twice the B.O.D. concentration in the wastewater, whichever is greater.

Wastewater Additional Surcharge provided by EPCOR

The additional overstrength surcharge for each kilogram of surchargeable matter per cubic metre of wastewater that exceeds the concentration indicated for that matter, in **Column B** of Schedule D, annexed to Bylaw No. 9675 shall be:

	Concentrations Above
(a) 34.61 cents for Biochemical Oxygen Demand (B.O.D.)	3,000 mg/L
(b) 34.61 cents for Chemical Oxygen Demand (C.O.D.)	6,000 mg/L**
(c) 30.27 cents for oil and grease	400 mg/L
(d) 2.881 dollars for phosphorous	75 mg/L
(e) 31.42 cents for suspended solids	3,000 mg/L
(f) 73.51 cents for total kjeldahl nitrogen	200 mg/L

** Or twice the B.O.D. concentration in the wastewater, whichever is greater.

Stormwater Charges

Charges are based on property size (A), development intensity (I), and a runoff coefficient (R) based on land zoning and a city-wide monthly rate. The charges are calculated as follows:

$$A \times I \times R \times \text{Rate} = \text{Stormwater Utility Charge}$$

A = the area of the property in square metres (m²), and the proportion of building lot area attributable to each unit for multiple units sharing a single building or property.

I = the development intensity factor of 1.0, except for properties where owners demonstrate under section 35.1 (2) and 35.1 (3) that they contribute significantly less stormwater runoff per property area to the City's land drainage system during rainfalls than other similarly zoned properties.

R = the runoff coefficient which is based on land zoning.

Rate = the monthly charge of \$0.025898 per square metre (m²).
