INTER-DEPARTMENTAL CIRCULATION OF ECOLOGICAL INFORMATION, REPORTS AND PLANS

The applicant is responsible for engaging the services of a qualified environmental consultant to prepare ecological information, reports and plans (e.g., Natural Site Assessment, Ecological Network Report, Natural Area Management Plan). Guidelines and Terms of Reference for various ecological information requirements are available from the Office of Natural Areas (ONA) website (www.edmonton.ca/naturalareas) or through direct contact with ONA staff.

Preliminary comprehensive drafts of all ecological reports are to be prepared and circulated to all involved departments (see below), and City Departments should be aware that this is their opportunity to make comments. Any comments or issues identified by the City reviewers must be addressed by the applicant/consultant and a final report must be prepared. The applicant must address all comments and if necessary, arrange meetings to discuss issues prior to a final report being submitted. Once a final report is provided, a final circulation shall be conducted for official approval from all involved departments.
