

STATE OF NATURAL AREAS PROJECT:
NATURAL AREAS MAPPING
SUMMARY REPORT

Table of Contents

Chapter	Page
1.0 INTRODUCTION.....	1-1
1.1 Background.....	1-1
1.2 The State of Natural Areas Project	1-2
1.3 Goals of Objective 1	1-3
1.4 Report Organization.....	1-4
2.0 METHODS	2-1
2.1 Overview.....	2-1
2.2 Edmonton Natural Areas Map Series	2-1
2.2.1 Natural Areas Mapping Review and Update	2-2
2.2.2 Depiction of Losses Since 1993.....	2-4
2.2.3 Depicting Protection Status.....	2-4
2.3 Edmonton Region Natural Areas Map.....	2-5
2.3.1 Digital Data Acquisition	2-6
2.3.2 Data Creation	2-7
2.4 General Resource Maps	2-7
2.4.1 Vegetation Resources.....	2-8
2.4.2 Special Status Plant and Wildlife Observations.....	2-8
2.4.3 Surficial Geology	2-9
2.4.4 Agricultural (Crop) Soil Capability	2-10
3.0 EDMONTON NATURAL AREAS MAP SERIES.....	3-1
3.1 Edmonton's Natural Areas in 2005.....	3-1
3.2 ESAs and SNAs Lost Since 1993	3-3
3.3 Protection Status of Edmonton's Natural Areas (2006)	3-3
3.4 Summary	3-5
4.0 EDMONTON REGION NATURAL AREAS MAP	4-1
5.0 GENERAL RESOURCE MAP SERIES	5-1
5.1 Mapped Vegetation of the Edmonton Area	5-1
5.2 Special Status Plant and Wildlife Observations.....	5-1
5.3 Agricultural Soil Capability	5-1
5.4 Surficial Geology	5-2
6.0 REFERENCES.....	6-1
6.1 Literature Cited.....	6-1
6.2 Personal Communication	6-1
APPENDIX A: DATA CONTAINED IN THE PROJECT GIS DATABASE.....	A1

List of Figures

Edmonton's Natural Areas in 2005.....	3-2
Environmentally Sensitive Areas (ESAs) and Significant Natural Areas (SNAs) Lost Since 1993	3-6
Protection Status of Edmonton's Natural Areas (2006)	3-7
Significant Natural Areas of the Edmonton Region	4-2
Mapped Vegetation of the Edmonton Area	5-3
Observations of Special Status Species in the Edmonton Area over the Past 50 Years.....	5-4
Agricultural Soil Capability	5-5
Surficial Geology of the Edmonton Area	5-6
