

## Welcome

Today we are presenting the plans for the widening of Rabbit Hill Road from Riverbend Road to Anthony Henday Drive.

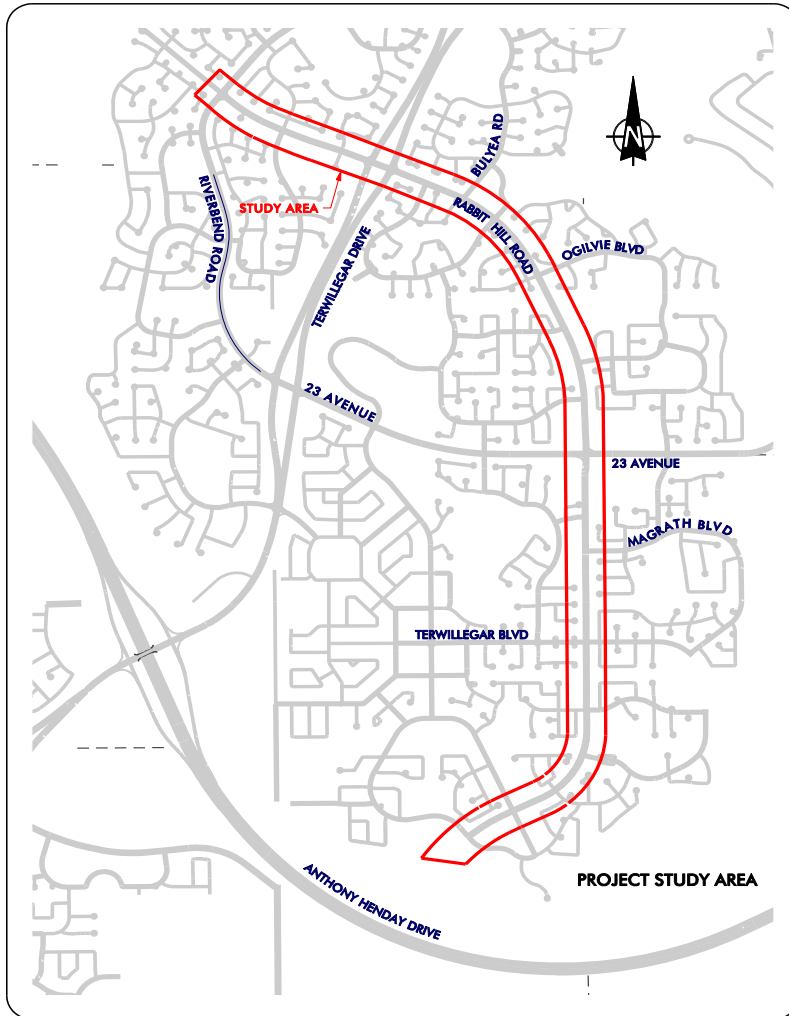

Representatives from the City of Edmonton are here to discuss the proposed project and answer your questions.

## Project Process

## Project Overview

- The study area includes Rabbit Hill Road, from Riverbend Road to the interchange at Anthony Henday Drive; a total project length of 5.6 km.
- Rabbit Hill Road will be widened from 2 lanes to 4 lanes.
- The existing 2 lanes will become southbound lanes and the proposed northbound lanes will be constructed to the east, within existing road right-of-way.

## Project Overview (Cont'd...)

- The first 2 lanes of Rabbit Hill Road were constructed as an interim stage to a proposed ultimate 4 lane roadway.
- Additional property will not be required for the widening.
- Widening of Rabbit Hill Road from 2 lanes to 4 lanes is currently scheduled to commence in 2011.
- An interchange at Rabbit Hill Road and Anthony Henday Drive is currently under construction and scheduled for completion in 2011.
- Depending on funding and construction timelines, actual construction may be staged such that the widening terminates just south of 23 Avenue, with widening to Anthony Henday Drive occurring at a later date.

## Widening Features

### **The widening of Rabbit Hill Road will include:**

- installation of streetlighting for the new construction;
- completion of sidewalk and multi-use trail installation along the entire roadway;
- select commercial and condominium access modifications;
- addition and modification of bus stop locations;
- addition of boulevard landscaping; and
- installation of signals at the commercial access north of 23 Avenue (Sobey's).

## Next Steps

- Concept phase completion: 2009 – 2010
- Detailed design to begin 2010.
- Construction to begin in 2011.

**Thank you!**

**Thank you for attending our open house.**

Please take time to fill out the questionnaires  
provided.
