

## Construction Notice – Tree removals near Century Park Station and Blackmud Creek

Beginning on/around **January 27**, Ledcor, the Design-Build contractor for the project, will need to remove approximately 100 trees west of Century Park Station, adjacent to 111 Street. This work is anticipated to take approximately three weeks, and is necessary to prepare the site for the expansion of 111 Street to make room for the LRT tracks. Please refer to the map below for details.

### Other Impacts

- Work will occur on weekdays and Saturdays between 7:00 a.m. and 5:00 p.m.
- Pedestrians using the path adjacent to the work zone may be temporarily stopped to accommodate equipment and workers.
- No traffic disruptions are expected during the work.
- Efforts will be made to minimize noise, vibration and dust. Mitigation measures will be implemented to monitor and reduce these impacts.

In early/mid February the shared-use-path leading up to Century Park Station will need to be closed for an extended period of time. Once the shared-use-path is closed, Ledcor will begin removing the retaining wall and berm. The area will eventually be levelled to accommodate the LRT underpass. Details, including detour information and dates, will be shared in a separate notice.

Also on/around **January 27**, Ledcor will need to remove an additional 50 trees on 111 Street between Saddleback Road/19 Avenue and 12 Avenue. **Please note:** this date has been moved up from February 3. Please refer to the map below for details, or see the original [construction notice](#) for more information.

In accordance with the municipal [Public Tree Bylaw](#), all tree removals will be conducted under the supervision of certified arborists. Ledcor acknowledges Edmontonians are passionate about trees and have a desire to maintain the city's extensive urban canopy. The decision to remove a tree is never taken lightly. Once project construction is complete, new vegetation including trees, native grassland, shrubs and flowers will be planted along portions of the alignment.
