Updated Timelines for Legacy NPDP Projects

July 2023

Fully Funded

Community Partners that are fully funded will be queued to be constructed in 2025 and reach project completion by summer of 2026.

Project Status

Community Partners will provide an update on their project status. This is an opportunity to reflect and plan for changes (i.e., reduction of scope) if fundraising goals are not being achieved as planned.

Fully Funded

Community Partners that were granted an extension must be fully funded by this date in order to meet the 2030 construction deadline.

"That Administration work with legacy Neighbourhood Park Development Program (NPDP) playground projects currently underway, including the Soraya Hafez Playground Committee, to develop a phased approach to navigate through the transition period to attain the playground/amenity project completion past the previously defined 2024 fundraising deadline."

Sept. 2024

Need more fundraising time?

Groups that have not reached their fundraising goals to match NPDP funds can request an extension with updated budget and scope information. Once reviewed and approved the city will grant an extension.

Jan-Mar 2026

Assessment

Final check-in with Community Partners prior to November Council Budget Meetings. Confirmation of scope, budget and timeline will be required to support 2027-2030 budget requests.
