

## Construction Notice - Anthony Henday Drive Median Lane Closures

Beginning **on/around September 12**, Leducor will periodically close the Anthony Henday Drive **westbound and eastbound median lanes** west of 111 Street to accommodate concrete pouring and construction for the future Anthony Henday Drive LRT bridge.

This work is expected to last approximately two months and will occur on **weekdays between 9:00 a.m. and 3:00 p.m.** Speed and lane reductions will be in place during the work, and lanes will reopen at the end of every work shift. Signage will be adjusted accordingly. Depending on weather conditions and progress, work may also occur on Saturdays between 7:00 a.m. and 7:00 p.m.

On/off ramps will remain open.

We apologize for the inconvenience this may cause, and thank residents and drivers for their patience.

**Map 2: Eastbound Median Lane Closure**

### Other Impacts

- Heavy truck traffic will increase intermittently on Anthony Henday Drive to allow for the delivery of concrete during construction of the centre pier for the LRT bridge.
- The speed limit on Anthony Henday Drive approaching the work zones will be reduced to 80 km/h in both directions during the work.
- Efforts will be made to minimize noise, vibration and dust. Mitigation measures will be implemented to monitor and reduce these impacts.
- Dates for construction are tentative and weather-dependent.
