

YOUR PLANTER POT IS NOT AN ASHTRAY.

Don't be the reason your home is on fire. Protect yourself, your loved ones and your neighbours. Use a deep, non-combustible ashtray that cigarettes can fall into.

Facts about smoking-related fires in Edmonton:

- In the last 4 years, almost 40% of fires happened in multi-family buildings
- They are 100% preventable
- Cigarettes can smoulder undetected for days before igniting
