Dear Gary,

At their meeting of December 10, 2021, the Accreditation Commission reviewed the material submitted in support of your request to continue the existing variance for Lucy.

Based on an evaluation of all of the materials the Commission approved the following motion:

To extend the approved variance for a period of one year subject to updates on any changes to the elephant's situation and the results of any medical examinations that may occur.

If you have questions on any elements of the Commission's decision please do not hesitate to contact Greg Tarry or me.

Sincerely

Serge Lussier
Chair of Accreditation Commission
Président de la Commission d'Accréditation
