

# Scramble Intersections in Edmonton

A pedestrian scramble ensures people walking and driving are never in the same intersection at the same time. This is safer for everyone.

## On Your Feet

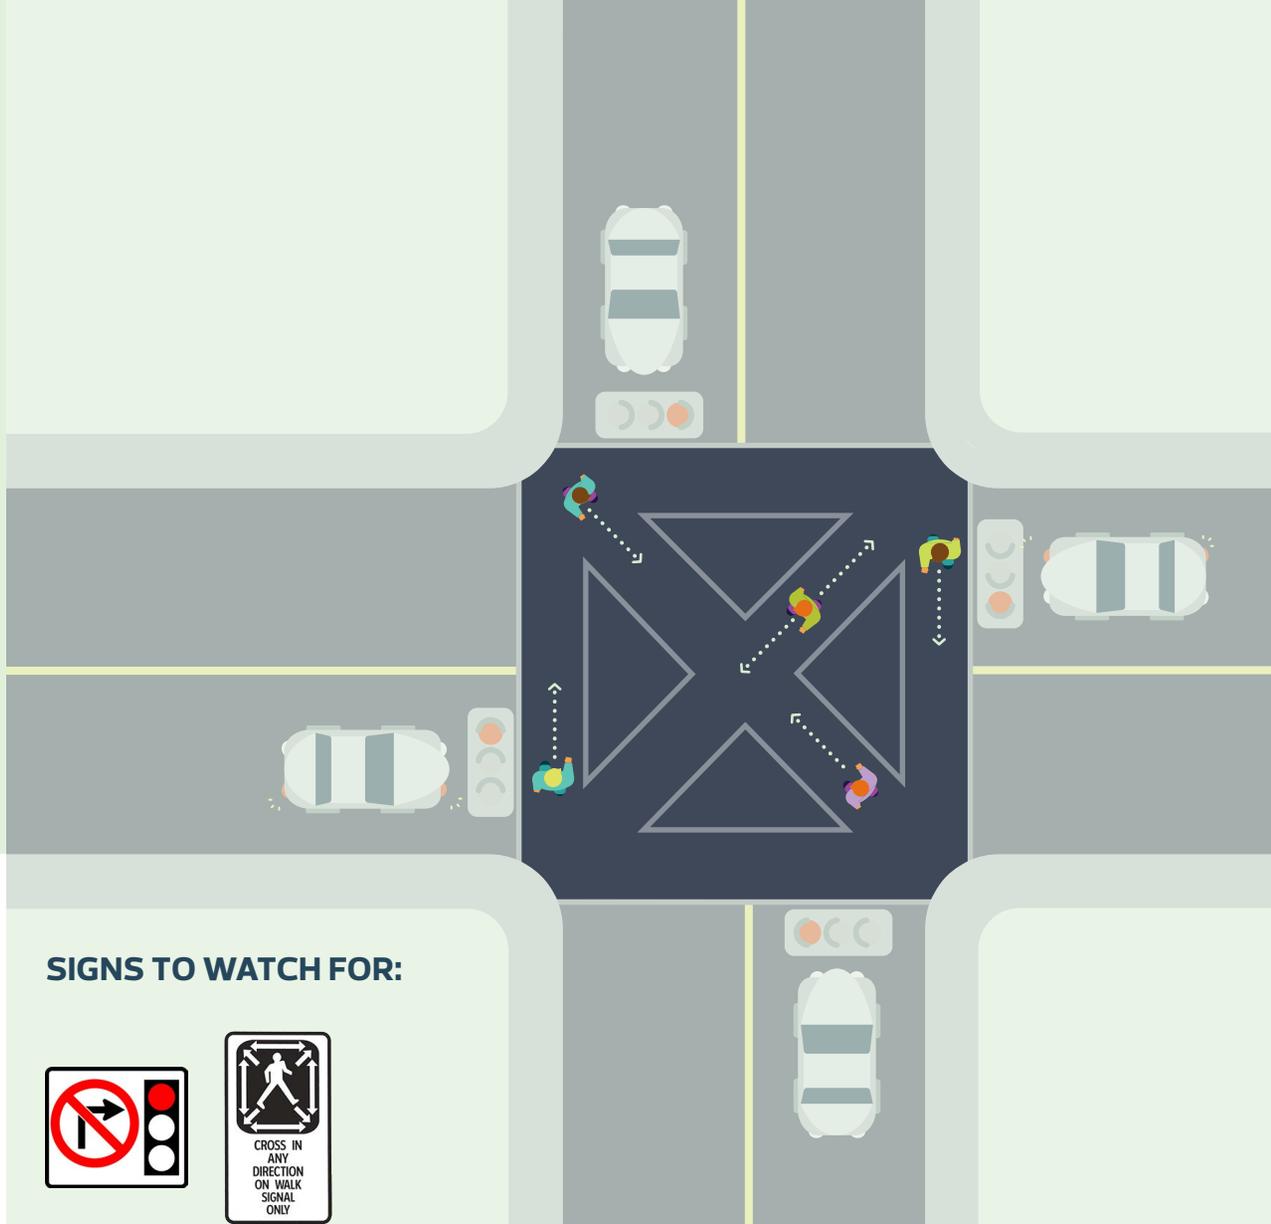

- Don't cross on a green light
- Cross only on the 'walk' signal, in any direction including diagonally

## In Your Vehicle

- No right turns on a red light
- Proceed straight or take your turn on a green light

## SIGNS TO WATCH FOR:

Be aware and take care when crossing an intersection.
