

86 ST.

Shared pathway to be constructed as part of the Active Transportation Network Expansion project. For more information about this project please visit: edmonton.ca/ActiveTransportation

WAGNER RD.

83 ST.

ADAPTABLE CURB EXTENSION

An adaptable curb extension extends into the roadway, either at crossings or midblock and helps to define the use of the road. They are typically placed to provide shorter crossing distances near pedestrian crossings or to help define where parking is permitted.

Adaptable curb extension on 102 Street and 82 Avenue, as part of the Ritchie Street Lab.
