FREEWAY CONVERSION PROGRAM

Construction Bulletin

Noise Wall Replacement (97 Street to Fort Road)

November 24, 2021

Project Overview

As part of the Yellowhead Trail Freeway Conversion Program, the City of Edmonton is replacing the noise wall from 97 Street to Fort Road. Landscaping along both sides of the new wall will be added. A new well-lit shared-use path will also be constructed from 89 Street to Fort Road.

The project team has retained DDS Consulting to construct the noise wall and complete all associated works. Over the next couple of weeks, DDS will reach out to residents in the project area inviting them to share information about their properties. This will assist DDS in planning for their construction work around residential yards.

Construction

- Preparatory works will begin in the project area shortly.
- Noise wall replacement will begin at 97 Street and progress towards Fort Road.
- Project is anticipated for completion by the end of 2022.

Schedule

- **December 2021:** Preparatory works will be underway by DDS Consulting. This will include site activities to identify utility conflicts in the project area.
- **End of 2022:** Expected completion of the Noise Wall Replacement Project.

Please be aware that construction schedules are weather dependent and are subject to change.
