

# 124 Street Renewal Scope

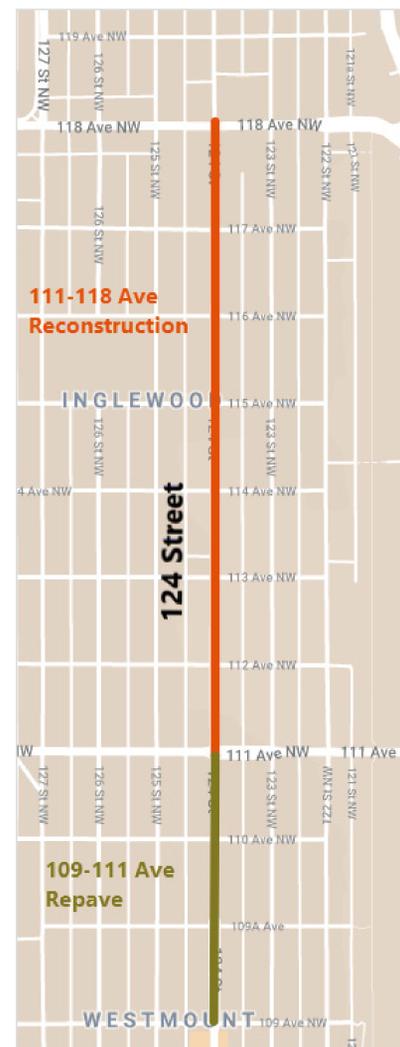

## What is included

Initial public engagement carried out with **Inglewood Neighbourhood Renewal**, informed the development of the following project vision:

### 124 Street is...

- + a **pedestrian-friendly** street that meets the needs of residents and businesses located in the Inglewood community
- + **connects people** to the places that matter to them, at a neighbourhood and city-wide scale, considering all transportation modes and respecting its role within the City's arterial road network
- + a **sustainable** and **environmentally-friendly** street

# 124 Street Renewal draft design cross sections

## Business frontage

- + Wider sidewalks and standard travel lanes with off-peak parking
- + Furnishing zone will include a wider boulevard for new street lighting, trees, and street furniture, such as bike racks, poster poles, and seating
- + Boulevard space will have a hard surface such as concrete or paving stones
- + New spaces for gathering near businesses

# Secondary lighting options

During public engagement, we heard the desire to continue secondary lighting north of 111 Avenue.

Secondary lighting is a project usually sponsored by a community group, business association or other collection of business owners who maintain and take responsibility for the cost of electricity.

Options include:

- + Tree lighting
- + Lighted bollards
- + Road / sidewalk overhead string lights
- + Pedestrian lighting

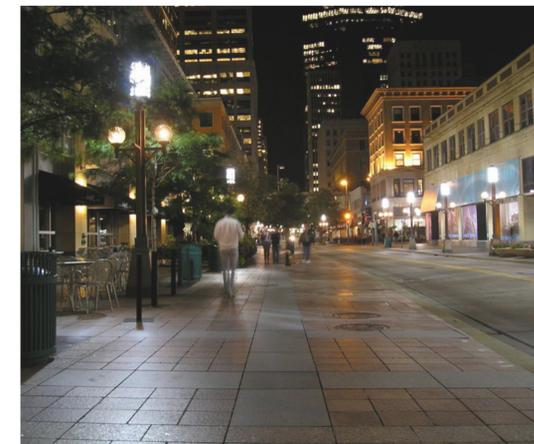

**Tree lighting**

**Lighted bollards**

**Road / sidewalk overhead string lights**

**Pedestrian lighting**

# 124 Street Renewal project vision

Initial public engagement for **124 Street Renewal** was carried out with **Inglewood Neighbourhood Renewal** and **Neighbourhood Revitalization**.

This public input was used to create the **project vision**:

## 124 Street is ...

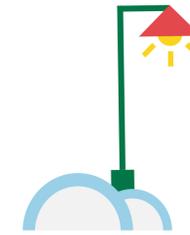

Walkable

A place for people to meet

Safe to cross

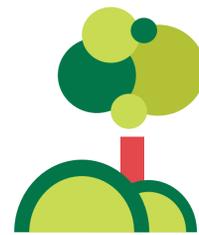

Bright and well-lit

Winter friendly

An area that brings people to places

A green street

A space for business and residential
