

# IMAGINE JASPER AVENUE

**Wood Benches at Gathering Areas**  
Comfortable wood seating with back and arm rests will be provided along Jasper Avenue. The adaptable design allows for the creation of a variety of seating types that are visually consistent.

**Roadway and Pedestrian Lighting**  
Streetlight fixtures will be the same as those used on Jasper Avenue New Vision. Simpler poles will be used for both roadway and sidewalk lighting.

**High-Contrast Furnishing Zone Surface**  
Contrasting colour of paving in the furnishing zone improves wayfinding clarity for the visually impaired. Dark colour concrete paving stones, similar to Jasper Avenue New Vision are proposed.

**Traffic Signals**  
Full signals at all intersections with automatic pedestrian cycle (no need to push button to get crossing light) except at 124 Street.

**Benches, Bike Racks, Waste Receptacles & Tree Grates**  
Consistent with Jasper Avenue New Vision to provide visual continuity and simplify maintenance and/or replacement in the future.

**Tactile Walking Surface Indicators**  
Used at intersection curb ramps to improve safety for the visually impaired.

**Pedestrian Wayfinding**  
Provided at select intersections to direct users to key destinations.
