BUILDING GREAT NEIGHBOURHOODS AND OPEN SPACES

BUILDING MALMO PLAINS

Beginning in Spring 2021, Malmo Plains will experience Neighbourhood Renewal. Through the City of Edmonton's **Building Great Neighbourhoods and Open Spaces** branch, the Neighbourhood Renewal program will rehabilitate roads, replace street lights, curb and gutters, repair sidewalks, and connect missing sidewalk links where possible in Malmo Plains. Cost sharing opportunities will be made available through the Local Improvement process for sidewalk reconstruction and decorative street light upgrades in the neighbourhood. Other opportunities to improve parks and public spaces will also be explored.

WORKING TOGETHER TO MAKE THE MOST OUT OF YOUR NEIGHBOURHOOD

This is your city and your neighbourhood. We want to understand how you experience your neighbourhood and ask for your input on what we might do to make it better. We will engage and work with you on the renewal of roads, sidewalks, street lights, and park spaces, and promote other community opportunities to enhance how people live and interact in Malmo Plains. We commit to being open and transparent about how your input is used. Let's make the most out of your neighbourhood!

Get involved and help shape the future of your neighbourhood.

GET INVOLVED - CO-CREATE A COMMUNITY VISION AND GUIDING PRINCIPLES

The Malmo Plains Neighbourhood Renewal project is just getting started and we need your input to help the project team along the way. Work with us to CREATE the Vision and Guiding Principles for Malmo Plains to shape a neighbourhood that reflects your vision and addresses your hopes and aspirations of an even greater neighbourhood!

A vision statement is a snapshot of important elements and desired outcomes for your neighbourhood renewal. Guiding principles include values and priorities that shape how that vision is reached.

We have created a road map (right) to help you understand where we are in the renewal process and how you can participate now and in the future. At each step we will tell you what the purpose is and how your input will inform the decisions being made.
