June 2018

In spring 2019, construction will begin in Central McDougall. This will include the replacement of its aging infrastructure and the reconstruction of local roadways, curbs, gutters, streetlights and sidewalks. It includes two local improvements, sidewalk renewal and the opportunity for decorative street lights. In addition to roadways, the City will also explore improvements on other City-owned land including green spaces, and look for opportunities to enhance the neighbourhood in coordination with the area's construction.

The project takes a holistic approach, working with residents, businesses and other stakeholders to focus on what they want to see. For more information, please visit [edmonton.ca/BuildingGreatNeighbourhoods](http://edmonton.ca/BuildingGreatNeighbourhoods).

## Get Involved

We want to hear from you! Your neighbourhood is unique and we want infrastructure renewal to meet your neighbourhood's needs, now and into the future. We will be offering a number of in-person and online opportunities to provide your input into Central McDougall's neighbourhood renewal throughout 2018.

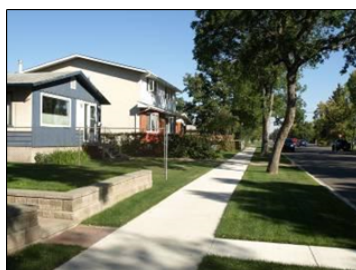

To ensure an understanding of what is important to those who live, work and play in Central McDougall, we will engage in broad, inclusive engagement. There will be many opportunities during the coming year for you to get involved.
