

# Confederation District Park Master Plan

**We are working toward a long-term vision for the park site with input from you.**

The Master Plan process considers your interests, existing and new amenities and activities, maintenance, City policies and the greater community to renew and update an aging park.

The concept plan shows proposed and existing amenities, buildings, parking and landscaping features. It is intended to show approximate sizes, locations, connections and the design intent, not details. The concept plan protects space for the potential of future developments and guides where potential future developments could go, including how the puzzle pieces will fit together.

# What we **heard**

Input on the preliminary concept was gathered from the general public, partners, specialized user groups and internal staff resources. All feedback was summarized into 5 core themes which are reflected in the final concept.

## Themes

- + Access and circulation
- + Sport activities
- + Recreation and play activities
- + Culture and celebration

# What's **next**?

**Your feedback will help** refine and finalize the concept plan.

The finalized concept plan and high-level cost estimate and implementation plan will be included in the Confederation District Park Master Plan, a long-term plan which will guide the future of the park site.

Design and construction of this project is currently unfunded. The Master Plan will be considered for funding as part of the Capital Budget process.

## Complete the **survey**

**Available** April 11–25, 2018

[edmonton.ca/ConfederationParkMP](http://edmonton.ca/ConfederationParkMP)

A summary of your feedback, as well as the Final Concept Plan and Master Plan Report, will be posted on the project website once finalized.
