

SNOW CLEARING SERVICE LEVELS

Edmonton

When it snows our crews are out. When snowfall stops, our priority clearing system begins.

ROADWAYS

PRIORITY 1

Main freeways, bus routes, downtown business district and hills.

 **COMPLETED WITHIN 1 DAY**

PRIORITY 2

Remaining freeways, arterial roadways, business districts, collector roadways, Transit Park and Ride access roads.

 **COMPLETED WITHIN 5 DAYS**

PRIORITY 3

Industrial areas and rural roadways.

 **COMPLETED WITHIN 6 DAYS**

PRIORITY 4

Residential roadways are completed as part of a Phase 2 Parking Ban.

 **COMPLETED WITHIN 10 DAYS**

ACTIVE PATHWAYS

PRIORITY 1

City facilities, Winter Priority Bike Loop.

 **COMPLETED WITHIN 1 DAY**

PRIORITY 2

City sidewalks, ramps, staircases, bike lanes, shared paths, pedestrian bridges and bus stop access.

 **COMPLETED WITHIN 3 DAYS**

PRIORITY 3

Manually cleared paths, bus stop benches and pads.

 **COMPLETED WITHIN 14 DAYS**

PRIORITY 4

Community sandboxes, safe mobility devices.

 **COMPLETED WHEN RESOURCES ALLOW**

Visit edmonton.ca/SafeTravels

for maps showing these service levels for your roadways and active pathways.

EDMONTON SNOW AND ICE CONTROL

Edmonton

PARKING BANS

Snow clearing is a shared responsibility. Have a plan before we call a parking ban.

PHASE 1

Major roads including core business areas and bus routes.

LASTS UP TO 5 DAYS

PHASE 2

Residential and industrial areas.

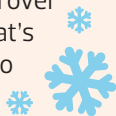

**LASTS UP TO 10 DAYS
- ONCE A BAN IS ACTIVATED**

Vehicles in place once the ban is in effect are subject to ticketing.

DID YOU KNOW?

The City clears over 500 km of active pathways and over 12,000 km of roads. That's almost as far as going to England and back.

SHARED RESPONSIBILITY

Property owners must clear snow from the front and sides of their property promptly after snowfall to improve safety and accessibility.

SIDEWALKS

Property owners can add salt and sand to icy sidewalks. Failure to maintain sidewalks could result in a \$100 fine. Sand is available at 100 community sandbox locations.

LIVE MAP

Watch the plows in action on the live map. When a snow event occurs, the map also displays the clearing status of every roadway.

CENTRE WINDROWS

A long line of snow heaped up along the centre of the road will be picked up within 5 days of their priority level being completed.

ALLEYS are completed as part of the same priority as their adjacent roadway.
