

Northeast Road Program (NERP) Residential Roads

Loop of 155 Ave West of 59A St;
157 Ave Cul-De-Sac West of 64 St;
North of 156 Ave loop of 61A Street to 157 Ave 61B Street;
62B Street Cul-De-Sac West of 156 Ave;
63 Street Cul-De-Sac East and West of 156 Ave;

As part of the 2018 construction program, the City of Edmonton, Integrated Infrastructure Services will be involved in roadway construction at the above locations. **Please refer to the map on the back of this bulletin for the scope of work for the 2018 construction season.**

Construction is tentatively scheduled to commence on April 30, 2018, and shall be completed by mid-October 2018 (weather dependent).

The work will consist of:

- Concrete repairs
- Removal of existing asphalt and road base
- Installation of a drainage system
- Placement of new road base
- Asphalt paving

This construction will be staged in sections to minimize disruptions to residents. During construction of each stage, affected residents **will not** have access to the street or driveways for approximately three weeks (weather dependent). Specific dates for each stage of work will be updated by future bulletins from the contractor, **O'Hanlon Paving Ltd.**

- If a garbage/recycle pickup date occurs during a time of street closure, please place bags at the end of the closure closest to your property.
- Please relocate sump hoses during construction to prevent drainage over the sidewalk.
- If you have special access requirements, such as DATE, please advise the contact person listed below as soon as possible.

Please retain this bulletin for contact information.
