

BULLETIN

Edmonton

Prince Charles Neighbourhood Renewal

As part of the 2018 Neighbourhood Renewal Construction Program (Building Great Neighbourhoods), the City of Edmonton will be involved in construction in the Prince Charles Neighbourhood. **Please refer to the map on the back of this bulletin for the scope of work for the completion of neighbourhood renewal work in the 2018 construction season.** The contractor will be delivering another bulletin prior to construction on your side of the street with estimated start and end dates.

Construction is tentatively scheduled to commence on the week of April 30, 2018. Please anticipate that the duration of construction in front of your residences may be up to 12 weeks (weather dependent).

Scope of work

The construction consists of removal and replacement of public sidewalk, curbs and gutters, and reconstruction and paving of the road. Streetlight replacement will be carried out, as required.

Access

During the construction period, one lane of traffic in each direction will be maintained at all times, under a flag person control. No parking will be permitted in signed areas. Access to businesses, residences and alleys will be maintained, where possible, at all times. Emergency access will be maintained at all times. All residents are asked to access their homes through the alleys, as much as possible, during construction.

If you have special access requirements, such as DATS, please advise the contact person listed below, as soon as possible.

Toward the completion of each portion of the project, the roadway will be closed to traffic on selected days to facilitate road reconstruction and asphalt paving. A bulletin will be circulated to the affected homes and businesses five working days prior to this work.

Landscaping

As part of the construction process, some re-landscaping will be necessary.

**Please mark all underground sprinkler systems to avoid damage during construction.
Please retain this bulletin for contact information.**
