# 30 km/h Posted Speed

## Strathcona will be getting a 30 km/h posted speed:

- + Speed limit signage at every intersection in neighbourhood for enforcement (legal requirement)
- + Traffic calming measures to encourage slower speeds

# Neighbourhood Renewal Project **Vision** and **Guiding Principles**

## **This vision was created by Strathcona residents and the Project Team:**

Strathcona is a welcoming, inclusive and vibrant neighbourhood designed to safely and conveniently connect a diverse mix of residents and visitors to the local businesses and services, festivals, parks, and public spaces in all seasons.

Strathcona's design encourages walking and biking in the community. Strathcona is known for its unique historic character and natural beauty, and the design will preserve these qualities.

Strathcona enjoys safe, attractive and inviting public spaces that strengthen our sense of community.

### **Guiding Principles**

1. To prioritize cycle and pedestrian spaces, and connections to all neighbourhood amenities, following Vision Zero principles, while considering the needs of vehicle users.
2. To provide infrastructure, street crossings and public spaces that are accessible and safe for all ages and mobility levels, and in all seasons.
3. To enhance/establish public spaces and parks that provide opportunities for community gathering, recreation, resting spaces and public events.
4. To incorporate design elements that reflect, protect and preserve the neighbourhood's history and natural elements.
5. To design safe, user-friendly roadways and intersections that reduce vehicle speeds and discourage shortcutting.
6. To provide residents and visitors with convenient access to buildings on residential streets.

# Trees

## Missing trees

- + Trees that have been removed due to health conditions will be replaced, where possible

## Replacement trees

- + Trees removed due to new renewal infrastructure will be replaced per the City's Corporate Tree Policy

## New trees

- + 86 Avenue will receive new trees
- + Consultation with property owners will take place prior to planting

### 86 Avenue: New Trees

# Project Timeline

## Concept Design

### January – September 2018

Plan for “what” will be built, including roadway and sidewalk widths, intersection design, traffic movements, and green space ideas.

## Preliminary Design

### October 2018 – February 2019

Plan includes specific design elements such as materials, exact geometry for roadway and sidewalk changes, locations and trade-offs for new sidewalks, confirms construction schedule and budget. Only minor suggestions and tweaks can be incorporated into the design at this stage.

→ WE ARE HERE ←

## Construction

### March 2019 – October 2021

Building the plan, phased over three years

## Pre-construction meeting

March 4, 2019

Strathcona Community Hall
