
Gardener

DEFINITION

This is skilled horticultural work, providing strategic direction to horticulture objectives. Employees are a resource for communicating best practices and providing custom horticultural services across different sections of the Branch. As the field expert this position will ensure that the green infrastructure comes into the district inventory is both maintainable and practical from an operational perspective. Incumbents provide strategic support to a direct supervisor, and act as a team lead on horticultural maintenance crews as required by parks leaders.

Incumbents work with both internal and external stakeholders and must balance their time between direct supervision and training of field staff and consultancy work that they perform through the design review process. This is an independent position that may work as a part of a team directly and indirectly. Day to day supervision is exercised over temporary and seasonal staff. Work is evaluated through observations and analysis of results achieved.

Positions in this class perform working activities involving strenuous physical exertion during all weather conditions and ensure the safety of others on public and private property. Employees must exercise courtesy and tact in the exchange of information with other City employees, external stakeholders and the general public. Given the nature of work performed, awareness and adherence to health and safety procedures is a high priority.
