

# PERSONAL TRAINER

I am willing to train any clients with a goal in mind. However, you have to be fully committed to an exercise routine. I am a non judgemental trainer who can design a program according to your needs. I enjoy training weight loss clients because I appreciate how they progress when I train them. I also enjoyed teaching the older population. A fitness routine should be a lifestyle and not be seasonal. I believe everyone can benefit from exercise. It doesn't matter what kind of exercise they are doing, as long it is doable and safe. My long-term goal is to work with weight loss clients and older population.

## Nhial
